

## Acetrax Innovative Aerial Work Platform Tires

*Ace Ventura Tyres and Tracks specialize in design, development & supply of ACETRAX® branded Innovative construction tyres & tracks. Ace Ventura has gained immense expertise in providing solutions for tyre & track related problems.*

When your equipment reaches heights over 100 feet, there's no room for compromise - especially when it comes to what keeps it grounded. Aerial Work Platforms (AWPs), including telescopic boom lifts, articulating boom lifts and scissor lifts rely on the strength, stability and traction of ACETRAX® tires to perform safely and effectively in demanding environments.

Trusted by professionals across a wide range of industries, ACETRAX® tires are built to meet the specifications of leading AWP manufacturers. With fast shipping and expert customer support, Ace Ventura make it easy to get the right tire solution for your equipment, wherever the job takes you.

Ace Ventura has complete range of Ready-to-fit Foam Filled Tyre & Wheel and Scissor Lift Assemblies suitable for all the machine models.

**Ready to Fit Foam Filled Tyre and Wheel Assembly**  
Tyre filling is a two component, simple, reliable and economical liquid Poly-Urethane. Foam Fill is developed for converting air filled tires into a urethane solid rubber filled tire that makes tyres puncture proof to maximize vehicle operating efficiency and to minimize downtime associated with flat tires.

Tyre failures are frequently caused by overheating due to underinflation, and our technology helps ensure that tyres reach their maximum potential lifespan, thereby contributing to the sustainability of this high-wear component.

### Features:

- Puncture-proof & maintenance-free
- Comfort Ride with less fatigue
- Better traction and handling to the vehicle

Foam Filled Tyre & Wheel Assembly is suitable for industrial equipment with a maximum operating speed of 25 km/hr.

### Ready to Fit Scissor Lift Tyre & Wheel Assembly

Scissor lifts play a crucial role on construction sites, while also offering a practical solution for vertical elevation in various other industries. One key aspect contributing to their efficiency and safety is the quality of the ACETRAX® tires they rely on.

Ace Ventura carries a wide range of scissor lift tyres in variety of pattern suitable for multiple machines like JLG, GENIE, HAULOTTE, DINGLI, etc. The scissor lift machines in India have been increasing in huge numbers since last two years and based on the demand, Ace Ventura stocks almost 500+ ready to fit scissor lift tyres.

### Features

- High quality rubber compound
- Bonded to rims
- Non-marking tread
- Extensively tested for durability

### Innovative Solution Provider

Ace Ventura focuses on application-specific, outcome-oriented products and solutions to assist machine owners and operators to get the finest out of their equipment in the most demanding conditions. Products are exported worldwide and are well accepted for their performance & value. ■
